### Red Sea Issues - past, present and future

Allen Marks, Director

Red Sea attacks, past present and future, how has the situation evolved, cost to the shipping industry, what is the legal position and how can you protect your legal position.

### Casualty workshop

Andrew Gray, Director

In this collision workshop designed for P&I claims handlers, participants will engage in a hands-on exploration of a scenario involving two vessels colliding. Through active participation, attendees will analyse the various parties involved, determine liability apportionment, and navigate the claims process.

### Owners' remedies for Charterers' failure to pay hire

Neil Jackson, Director

A practical, scenario-based workshop looking at the options available to a shipowner when their charterer fails to pay hire, including suspension of service, withdrawal, termination, claims for damages and liens on freight and sub-hire.

### Green ship recycling

James Clayton, Director

Navigating the complex international regulations on ship recycling can be challenging. With the Hong Kong Convention expected to take effect next year, upcoming legal changes and the impact of "green litigation" on vessel owners will be discussed in this seminar.

### Status of the ship finance market

James Clayton, Director

As ship values and industry share prices soar, have opportunities for shipping financiers vanished? James will cover the status of the ship finance market, from secured loans to sustainability linked loans.

### Shipbuilding

Helen McCormick, Director  
Allen Marks, Director

Issues in shipbuilding contracts change with market fluctuations. In the current seller's market, past experiences can help anticipate potential problems. This seminar will explore the current market impact on shipbuilding contracts, new technologies, negotiation strategies, and dispute resolution.

### UK Sanctions Compliance - Key Issues

Duncan Ealand, Director

Delve into the critical aspect of UK sanctions compliance checks. Learn about the key issues, including identification of Designated Persons and related entities, the concept of "ownership and control" and the way the English Courts have interpreted the Russian (Sanctions)(EU Exit) Regulations 2019.

### Force Majeure

Allen Marks, Director  
Jeong-Sook Kim, Associate

This seminar will cover construction delays and shipyards' entitlement to time extensions for force majeure. It will explain how these clauses work and offer practical advice on handling delay claims.

### Limitation of Liability - Forum Shopping and the LLMC

Alistair Johnston, Director & Maria Borg Barthet, Director

This presentation will cover the Limitation of Liability for Maritime Claims (LLMC) Convention, recent legal decisions, and the impact on interpretation across jurisdictions, addressing forum shopping practices and their implications.
